Dear Alan,

Thank you very much for your letter of the 29th, and for the enclosures. Your suggestions are fine, and I have incorporated them. As regards the headings, I also prefer them in English.

I have already sent the MS. to the printer. I shall send you one lot of proofs when they come, which I hope it will be before the end of February, since we are going to be away for about three weeks in March. I shall have 500 copies printed. Better have a few more spares, and it will cost the same.

Perhaps we better wait to see if there are some more applicants for the Scholarship, as you say.

All the best to you. You have worked very hard on this thing, and I am sure it will be very much appreciated by the Society, and also by the Col.loquialistes (how do you like this word?).

*As ever,*
