Dear Sir,

At the moment I am studying at Liverpool University for a BSc. Honours Degree in Geography. As part of my degree I have to write a dissertation based on six weeks field work. I have chosen to write on Andorra, and will be visiting there this summer. For part of my background knowledge on the country, it would be extremely useful to have translations of Joseph M.^a Guiera's books, Una Historia D'Andorra, El Pirneu, A Trossos, and Excursions Pels Pirineus, and also any other translated books or literature, either for loan or purchase.

Any comments or suggestions would be very much appreciated. I await your reply with interest.

Yours faithfully

M.P.B. Morgan
