Dear Paul,

Thanks for the letter. I'm glad about Cantonigros. I think Sheffield is all right. All the machines seem to be Grundigs & I'm pretty sure one of them will do. Will confirm later. I'll write to Gubern today, and suggest the weekend (Sunday perhaps?) after Whitson or the one after that. It occurs to me though that he may have gone back to Sunny Brea already. His desire to visit ^{us} was mentioned a long time ago, & a lot of water has flowed since then.

I showed ~~the~~ RFE. is the thing for a bright boy (shows great promise) like you. I don't know anything about it though. Wilson did it for me through the Instituto de España. Try the direct approach: University note paper + grandiose style. . . . Is it there a Revista de Dialectología . . . , but that's probably too obscure.

I'm glad about Manycé, but don't understand it though. Còrs de catalans.

I'm going to London tomorrow for a few days. BMing. If the Stevedors let me. Una bona abraçada, Geoff.
