Dear Professor Tate:

My delay in answering your most welcome letter is due to the fact that I sustained a very serious ankle fracture in January and am still getting about on a walker.

However it begins to seem possible for me to get to Catalonia during the summer and so I am hoping to attend the Hispanic Congress and the Anglo-Catalan Conference.

I do not want to take much time on the program or perhaps elsewhere during the meeting but think you might like to know of our activities as we are so very interested in yours.

With all good wishes,

Sincerely yours,
Josephine de Boer
