Dr A Yates
Department of Spanish
The University
Sheffield

Dear Dr Yates,

I believe that you are an official of the Anglo-Catalan Society. Professor Round of the University of Glasgow put me in touch with you because I have expressed an interest in Catalonia.

I am a political scientist whose main interest is in nationalism and, having written a book on Scottish nationalism, I am about to start some work on the situation in Spain. I can read Spanish fairly easily but have not, of course, looked at anything in Catalan. Nevertheless, I am interested in doing some work on the political situation in Catalonia and particularly in various Catalan political and social movements. I should be very interested to hear about your organisation. Professor Round suggested that there was to be a conference and I would be interested to attend it if this were possible.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'Jack Brand'.
