Dear Dr Yates,

Thank you for your circular letter and post script. I enclose my subscription to the Anglo-Catalan Society and also my conference fee on one cheque. I have a paper on the rise of the Catalan nationalist movement which I am bringing up to date now. I would actually be quite happy to give it to a meeting, not because I think it is any good, but because I am very much aware of the fact that there are many people in the society who know a great deal about Catalonia and who could put me right. If this is agreeable to you then I should be happy to do as you suggest.

Yours sincerely,
