Dear Dr. Tate,

Thank you for your letter of 23rd May. We are conducting two residential courses for foreigners this year, one in Bangor and one in Manchester, and each of them is described in the enclosed brochures.

The Manchester one, held in our residential college, Holly Royde, can be attended for any one of the three weeks of its duration: from July 1st to 22nd. The one in Bangor is described on page 6 of the brochure and can be attended for any or all of the three weeks of the School. The course is not actually shown in the brochure for the third week but will almost certainly take place. At each of these courses instruction will be given in the English Language.

There is still room for one or two people to attend either course in any of these weeks.

Yours sincerely,

F. W. Chandler
