Dear Joe,

A short line about preparations for the A-C Conference at Belfast. Geoffrey has already written asking you to let us have the draft of a circular to members which we can have duplicated and posted here. I should add that since time presses we need not at the moment also include the report; this can be sent out later when we give final notice and send out the agenda. By the way, Llubera and Gili have both agreed to give talks. I am going to try to get Llubera to make it a general one to which outsiders can be asked, that is, if he wishes to make it so. Geoffrey is also thinking of writing to Soler Leris for another talk. Let us have the circular draft as soon as you can.

I was very sorry not to see you when I was in Cambridge early last month. I stayed at Emmanuel and also saw Terry, whom I found in his usual stimulating form. I hope you are now fully recovered and that you have managed to get down to work again. I'm up the the eyelids, what with my own book and the Llubera Festschrift, lectures, essays, committees etc. I shall look forward greatly to Dublin. Hope you get to this one before Belfast. Una hopes to accompany me.

As ever,

*Frank Pierce*
