Dear Alan

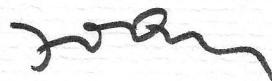

It was good of you to give me news of the Committee meeting. All the news are excellent. The contacts with the Fundació & Generalitat organ well — marvellous! I hope that all the projects come to fruition, including the Lectorat in London (the one here has started v. well).

Look forward to seeing the Espriu volume.

And many thanks for sending the photostats. Very nicely written your letter.

Believe it or not I am trying very hard to untangle the knots I've got myself into to find the right approach for the little volume you "commissioned" me. I have written a few pages, & if you don't mind I will send them to you. I ~~would~~ like to know if I am going the right way about it and if it seems interesting enough. But I have to type them out still.

Una festa agraada,
