TO: All Friends of Catalonia

FROM: Josep G. Llaurado and Albert Forcadas

PROJECT: "CATALONIA: LAND, PEOPLE, CULTURE"

This project consisting of an undetermined series of books written in
English envisions to spread facts on Catalonia throughout the world and
towards the future. It will be like a repository of archival type
maintained by libraries and persons throughout the world interested in
the history, music, science, religion, grammar, politics, etc. of
Catalonia.

We have in mind a very ambitious project to be published in several
volumes which may take many years and require many scholarly authors.
It will be written as chapters by different experts willing to collaborate.

Suggested topics for chapters may be for instance: Geography, Demo-
graphy, Catalan Institutions, Archaeology, Political History, Military
History, Economic Development, Ethical Heritage, Christianity, Folks
and Handicraft, Literature, Music, Architecture, Sculpture, Painting,
Maritime History, Catalan Language, Development of Book Printing, Cat-
alan Influences in Europe, Catalan Influences in Hispano-America,
Catalan Influences in North America, Catalan Emigration in 1939, In-
fluence of Other Literatures on Catalan, Catalan Influences on Other
Literatures; Medicine; Science; Philosophy, etc., etc.

These titles do not pretend to be exhaustive, but to give simply an
idea of the possible chapters.

That this is no illusory project can be asserted by the fact that a
similar work is being published about CROATIA, edited by F. H. Etero-
vich and C. Spalatin, University of Toronto Press, Vol. I 1964, Vol. II
1970, that you may wish to consult.

For the Project "CATALONIA: LAND, PEOPLE, CULTURE" we need not only
chapter authors, but also assistants, sponsors, supporters, typists,
fund raisers, etc. Those interested, please communicate with:

    JOSEP G. LLAURADO   or   ALBERT FORCADAS
