12. 4. 56.

Dear Paul,

Thanks for your letter. Too bad about the confusion. I hope my paper will suit the conference all right. I shall try to avoid hunking in obscure corners of the 15th. Would it be all right if I gave it on Saturday morning? I have written to Jerry Waldron to see if he can put me up. Beth is coming with me but she's staying outside in Wledroth.

The resumé of my paper runs somewhat like this

Vindict Vicens Element (early extract in. (474))

A brief glimpse of the contact between the kingdoms of Aragon + England in the 15th-cent. through the biography of Vicens Element, native of Valencia, student at Oxford, envoy of Duke Humphrey, Henry VI to Rome. Subsequently Papal Collector ^{or} in England from 1450 as well as King's proctor in the Vatican. His part

in the Wars of the Roses and later in the international policies of John II of Aragon during the Civil War in Catalonia.

His relations with English + Italian scholars + ecclesiastics: the problem of Martorell's stay in England.

I hope that will be O.K. All the best + I congratulate you on an excellent conference. It really was good fun.

Regards + Stagg,

Brian
