Dear Joe,

Excuse delay in answering yours of Nov. 22nd. Riba, whose visit was very enjoyable and successful, intervened. Mrs. Pearsall, who lives at 9 Robert Adam Street, London W.1, is a freelance woman journalist who knows Spain, comes to our lunches and belongs. She knows Bevan and can supply his address.

Geoffrey and I decided to make the contribution of the Society to the Riba visit two first-class fares London to Sheffield. This for your next circular; it will cost the Society £3.15s. By the way, has Paul yet let you have all the dope, papers etc? If he has I think we should try to get out minutes and notice of the Sheffield Conference sometime soon.

Suez is now over but the wriggling of whitewashers (metaphor!) and the growth of Little Englandism and anti-Americanism go on. It has all been an amazing lesson in political education, but I fear we are going to suffer for it in many ways for a long time to come. The politician who appears to have come out of it with distinct profit is Aneurin Bevan. Vote Labour!

Let me know if the other Bevan accepts our invitation to talk (with slides) on

Bovee and can supply his address.

Geoffrey and I decided to make the
contribution of the Society to the

Such is now over but the writing of
Whitepapers (memoirs) and the growth of
little Whitepapers and anti-Americanism

in political education, but I fear we are
going to suffer for it in many ways for a
long time to come. The politician who
appears to have come out of it with dis-
tinct profit is Arthur Bovee. Note his
point!
