Dear Sir,

I am writing to enquire whether or not the Society can be of assistance.

At present I am a final year student at The Polytechnic of North London studying for a B.A. (Hons) in Hispanic Studies. As part of my final year assessment I have to produce a project formulated on my year abroad.

As this year was spent in Valencia I am proposing to write on the question of valenciano, its history, development, its position now in Valencian society and of course its relationship to Catalan.

Although I was able to pick up a variety of books etc. whilst abroad, unfortunately the majority are in valenciano which makes for slow progress.

I was therefore wondering if you could suggest within the Society or elsewhere, whether or not there is any information, papers, theses etc

to which I could refer.

Of course any information would be used only for my project and would be referenced.

At the same time of ~~the~~ <sup>done</sup> replying could you send me details on how to join the Society.

Thanking you in advance

Yours faithfully

J. R. Farrow

J. R. FARROW

Please send info. I've replied to his Valencian inquiry
