Dear Dr. Yates

Thank you for telephoning this morning concerning the conference on November 10 1979.

Here is the Brochure I promised to send. Most questions are dealt with in the details but you might like to know that $\frac{1}{4}$ litre bottles of wine can be supplied at 65 pence each.

Perhaps you could consider the various possibilities and let me know what you think.

I tried to find the name of our contact at the Department of French, but unfortunately I was unsuccessful. It must have been another University.

I look forward to hearing from you further and in the meantime remain,

Yours sincerely

M. E. Warner
