P. Russell-Gebbet, Esq.
The University
Nottingham

Dear Mr. Russell-Gebbet,

Thank you very much for your
letter of before yesterday.

I don't think I can add anything to the circular
letter, which seems to me admirable. Perhaps I should not
give so much emphasis that the purpose of the society is
among other things for the furtherance of teaching Catalan
at the Universities. I think this will come by itself, and I
would suggest therefore that you leave the reference on the
first paragraph, but delete the one on the last one. I am
only suggesting this because it might frighten people not
directly concerned with teaching. ✓

I do hope you get some response from Dr. Batista,
as you should.

I congratulate you on having made a start, and if
I can be of further assistance, please let me know. If I had
a few copies of the circular, I would distribute them. Some 25
should be sufficient for the moment, for those whom I suspect
you might not have their address.

Yours sincerely,

W. Gili
