Dear Paul,

As you can see I have sent out the circular asking for my boodle. (I don't know what I'm going to do when I start to pay out the cash which is nesting nicely in my bank giving a completely false picture of prosperity!)

I have put a final date on so that I can work out exactly how much we can give by the end of January.

As regards the details of the prize, Gili has written to Frank to say that he doesn't mind its being limited to Catalan (from the point of view of language).

I took advantage of the

circular to remind the chuggards of  
the wof- sub. they owed. I hope it  
will now come rolling in. I didn't  
remind Cheyne because we agreed, I  
think, to let him off because of last  
year (but he can pay if he likes of  
course).

I made mis. Term has passed  
on unregretted. I shall stay for a  
few days more & then to the  
great metropolis for Christmas until  
the New Year, just about. Are you  
off to the great Southern sea-side  
resort, unsurpassed (except for Black-  
pool) for all summer sporting — and  
gloriously — I imagine — in the winter.

All good cheer

for the time of the year —  
doesn't scan but does it matter,

Yours,
